

# Mata soccer

**Do you like sports?  
Do you want to play soccer with Matata?  
Just try it!**

## Game Setup

- **Matatalab coding set or pro set \*1~2**
- **Soccer ball \*1 (paper craft)**
- **Soccer ball player (LEGO)\*1~2**

## Game Objective

- **understand how the matatalab works and basic knowledges of programming**
- **experience the Computational Thinking**
- **develop comprehensive abilities during multiplayer competition**
- **develop AQ**
- **develop fine motor skill**

## Rules

- **two players begin in front of their goals**
- **play paper, scissors, rock to decide the soccer position (winner decides)**
- **code simultaneously**
- **get one point when push the soccer into another goal**
- **whoever gets point, players should go back to their goals and start again**
- **whoever gets 11 points first is the winner**

## Notes

- **touch blocks only (save matatalab with your hands in case of emergency)**
- **anyone push the soccer out of the map should be punished and go back to his or her goal. The soccer should be put on the other side**
- **if collision happens and one players' Lego arms are knock out, he or she can put them back and keep pushing whereas the "murderer" should go back to the goal and defend**

## Our Wish

**First of all, we want to say thanks to you for playing with matatalab as well as playing this game.**

**Don't forget to bring your real soccer and go out with your friends!**
